

## Instructions to assemble Patriot Act: The Home Version Game

1. Print out the following four pages of this PDF on a color printer. The pages are set up to print on a regular letter-sized printer (8.5" x 11"). These pages will overlap to fit together to form the main game board. (Note: if your printer leaves a white edge on the inside edges of the game board, you may wish to trim off the white margins from the inside of the game board. This will insure that the board will appear as one solid piece when assembled.) Once the pages are lined up, use clear or transparent tape to join pages together. The four-paneled board can then be used as is or taped or adhered to a cardboard backing for stability.

2. Page six contains 2-dimensional images of the original 3-D game pieces. Cut out each piece along the dotted lines, then fold each piece to create a menu-card style stand up playing piece. Use a small piece of tape to secure the bottom of playing piece.

3. The other PDFs posted contain all the board description cards, Homeland Security playing cards, Civil Liberties, Security Profiles and Free Speech Zone cards. Just print out as many cards as are needed for playing, and cut them out along the dotted lines. If you do not have a colored printer, be creative and print the cards out on different colored copy paper!
